ABOUT

Full stack developer with 5+ years in the tech-startup scene. Passionate about education, having spent a year teaching in Asia, and now volunteering to teach JavaScript in NYC schools. When not coding, is usually found writing articles on tech.

EXPERIENCE

MOXIE READER

Freelance React Developer | Dec 2017 - Present

- Execute and contribute to full-stack web development projects, with an emphasis on front end features in React and Node

THE PUBLISHER DESK

JavaScript Developer | Nov 2017 - Present

- Build client websites with WordPress/PHP, developing themes and plugins
- Manage data modeling, SQL, and database systems

SCRIPTED.ORG

Volunteer JavaScript Teacher | Aug 2017 - Present

- Introduce high school students to the fundamentals of HTML, CSS, Javascript and jQuery through ScriptEd's Foundations Course

PERSADO

Digital Marketing Campaign Engineer | Dec 2015 - Mar 2017

- Used Persado's Enterprise platform to develop and execute a series of integrated, multi-channel marketing campaigns to generate direct revenue for brands such as Sears, Under Armour, Lenovo, and others
- Partnered with the product team, project managers, customer success, and statisticians to execute multiple concurrent projects involving machine-learning on a fast-paced schedule

EDUCATION

THINKFUL

Web Development Intensive | 2017

- Completed intensive, six month course on modern full stack JavaScript development
- Collaborated with other software developers using agile methodology and TDD to create projects using React.js, Node.js, etc under the guidance of senior developers

FORDHAM UNIVERSITY

B.A. Communications (on academic scholarship) | 2010
